

Notice to All Registration Packet Recipients

You will notice that the website forms are divided into several sections.

All Parent/Guardian Forms need to be filled out by parent/guardian and returned to CAOS.

All Reference forms are forms that parents/guardians keep as they contain important information you will need throughout the school year.

Medical Personnel forms include the physical, vision & dental forms that must be completed by appropriate medical personnel, MD, PA, NP, etc.

- Physical examinations are preferred prior to the start of the school year for each student. Physicals completed within one year of the first day of school will meet this requirement. A physical must be submitted by October 15 of the current year for the student to stay enrolled.
- Vision examinations are required prior to the start of the school year for students entering kindergarten.
- Dental examinations are required for kindergarten and second grade students and must be completed by May 15 of the school year.

Emergency treatment section on the Student Information Form must be notarized before returning to CAOS.

We apologize for the repetitiveness of some of these forms; however, in the best interest of your child, it is imperative that this information be maintained.
